**Snow Removal**

As a reminder, if at all possible, please park vehicles off of the streets. This helps us with widening the streets and for better snow removal. Also, when shoveling or having someone plow out drives, please keep the snow off the street. Once we have covered a street, we will not be back around until all the other streets have been plowed. **Pushing the snow from a driveway into the street can cause dangerous driving hazards. It is also illegal.**

**Safety Reminders for snow:**

**Please remember not to follow too close to the back of the truck.** We frequently turn around and back up. When the hills are icy we have a difficult time coming down them. Please be aware that we may find it necessary to back up the hills to get traction ourselves. If we can't see you in our mirrors, we may back over you. Drive cautiously in the snow, just because the trucks are out doesn't mean the roads are in good condition. Pay attention to the vehicles around you, slow your speed down and increase your following distance. Take a little extra time during your travels. A few extra minutes in your travel time is much better than being in an accident because you tried to speed or pass someone on snow covered roads.

Our trucks are just like any other vehicle out on the road. If the roads are icy and snow covered, we can slip and slide just as well as a car or pickup. But the only difference is we have a snowplow and an 8-ton truck to stop. If you have troubles stopping in a car, just think what we have to do to stop our trucks.
