To the Leetonia Water customers:

The Leetonia Water Department wants to remind customers about the current water problem that we have been experiencing for the past year or so with the higher than normal iron levels in our water supply. We want to remind customers to use caution when using the water to wash items that can be stained from the high iron content in the water.

We know the water quality is a problem, but I want to assure you that the water is tested daily, and must be reported to the Ohio EPA concerning the safety of the water. We appreciate our customers concerns, and the Village of Leetonia is doing everything possible to come up with another source. We are currently working on a water line project to purchase water from the City of Salem. We welcome customers to call in and request a tour of our current system and have our current water situation explained during the tour. This way, everyone can better understand what is going on and what is being done to correct the problem.
