Re: Paving Projects

Date: 04-07-2021

From: Gary E. Phillips, Village Administrator

CC: Mayor, Council, Police Department, and Fire Department

The Village of Leetonia will be starting our paving project on East High Street from Main Street, East to the Village limits on East High Street.

Construction will be starting on **Monday, April 12, 2021** at approximately **7 am**.

We are asking motorists to avoid this work area, due to the fact there will be a lot of construction going on and the road will be closed most of the time during the construction time.

The Community Park will also be closed to vehicular traffic to get in and out of the park during the construction time.

After the East High Street project is completed, the Contractor will be paving Somer Street from Cherry Street to Lisbon Street. There will be **NO PARKING** in effect during the Somer Street paving project at times.

R.T. Vernal Paving & Excavating, INC. will be completing the work at both areas.
