

Recommended Trees to Plant

Large Sized Trees

(Mature height of more than 45')

(* indicates tree form only)

Trees in this category require a curb/tree lawn width that measures at least a minimum of 8 feet (area between the street edge/curb and the sidewalk). Trees should be spaced a minimum of 40 feet apart within the curb/tree lawn. Trees in this category are not compatible with power lines and thus not recommended for planting directly below or near power lines.
